Re: Underground Injection Control (UIC); Notice of Violation: Loss of Mechanical Integrity for the 31-19B Well (EPA Permit ID# UT20911-04616, API # 43-047-33555) – Red Wash Oil Field, Uintah County, Utah

Dear Ms. Abrams:

On November 23, 2016, the Environmental Protection Agency learned by email from you that the QEP Energy Company injection well referenced above lost mechanical integrity on November 23, 2016. Pursuant to the above-referenced UIC Permit and Title 40 of the Code of Federal Regulations Section 144.51(q)(1) (40 C.F.R. § 144.51(q)(1)), you must establish and maintain mechanical integrity. A loss of mechanical integrity is a violation of this requirement.

Pursuant to the above-referenced UIC Permit and the regulations at 40 C.F.R. § 144.51(q)(2), you must immediately cease injection into this well. Before injection may resume, you must demonstrate that the well has mechanical integrity by passing a mechanical integrity test (MIT). You must also receive written authorization from the EPA.

You have notified the EPA describing the action you intend to take regarding the well. It is expected that you will return this well to compliance within ninety (90) days of the loss of mechanical integrity. If you choose to plug and abandon this well, the approved plugging and abandonment plan that is incorporated into the permit must be followed. Any deviation from that plan must be submitted to the EPA for approval prior to the plugging operation.

Any failure to comply with the UIC regulations found at 40 C.F.R. parts 144, 146, and 148 is subject to enforcement by the EPA, as provided in section 1423 of the Safe Drinking Water Act, 42 U.S.C. § 300(h)(2).

If you have any questions concerning this letter, you may contact Gary Wang at (303) 312-6469. Please direct all correspondence to the attention of Gary Wang at Mail Code 8ENF-W-SDW.

Sincerely,

Suzanne J. Bohan
